

Briquetts machine mod. Standard

 micuccisystem.it/en/macchinari/bricchettatrice/

Features

- Motor HP 7,5 – KW 5,5
- Diameter briquetts 65 mm
- Max briquetts lenght 50 mm with pusher for short briquetts
- Max briquetts lenght 300 mm with pusher for long briquetts
- Nr. 12 cycles/min
- Nr. 03 hydraulic cylinders
- Production 0,890 m³/h (+/- 10%) with max humidity 17% (this value is indicative and can change on the basis of physical structure of material)
- Height 1485 mm
- Front 1100 mm
- Depth 1785 mm
- Weight kg 800
- Oil tank capacity lt 110
- Drum of feeding diameter 1000 mm
- Pump 40 lt/min
- Inspection door with viewer
- Automatic level sensor start/stop
- Predisposition in the panel board for connection external motor of feeding
- System of double feeding of drawer (for light material)
- Oil filter on the circuit
- Pressure control manometers
- Electromechanical panel board
- Declaration Ce
- Manual of instruction
- Wiring diagram
